About us

Lore ipsum dolor sit amet, consectetur adipiscing elit.

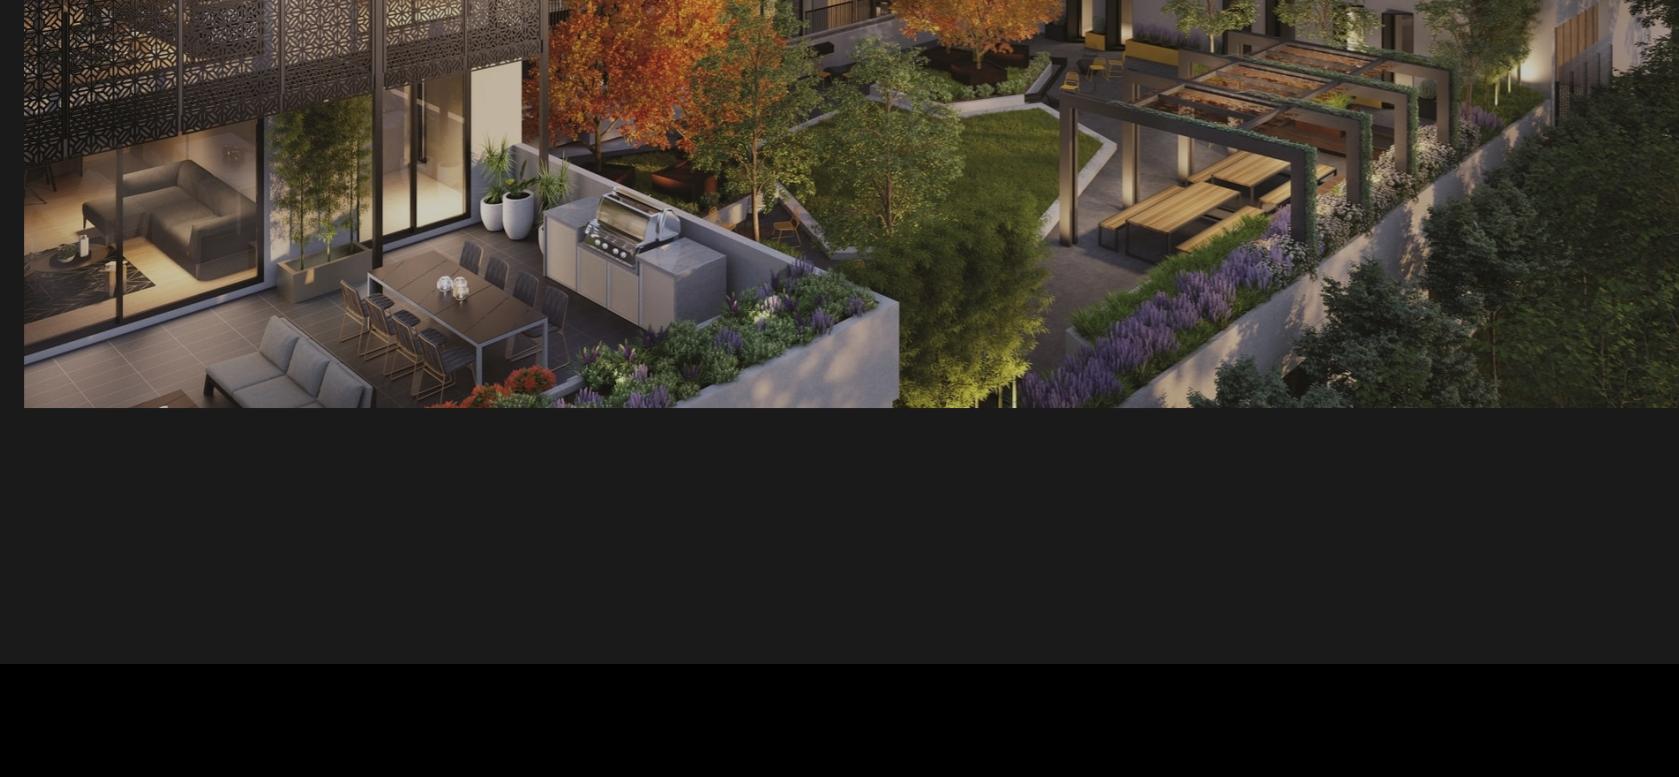

Proud of what we have achieved from the drawing board last year! With a lot of effort we have set up our real estate company: Tradre Group . We focus on the growth areas in the Netherlands. We strive for a continuously growing real estate portfolio of stable rented real estate.

With our own, unique data-driven search method and the network of our own trained sourcing partners, we are able to realize a custom-made real estate portfolio. At Tradre Group we work with a fixed, realistic purchasing policy, which means that many parties find it interesting to work with us!

Our services

What we do

Residential Real Estate

We offer the security of creditworthy tenants and a long-term lease.

[Learn more →](#)

Commercial Real Estate

Our objects that are inhabited meet the minimum energy label C. We carry out necessary upgrades to objects ourselves.

For investors

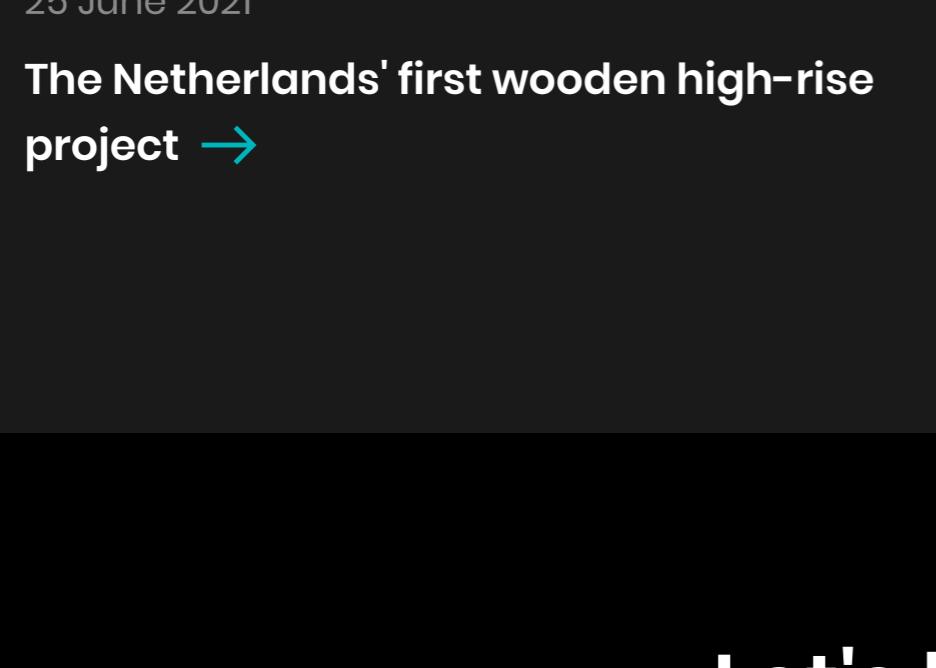

Building a custom-made real estate portfolio together

Cooperation, flexibility and guarantee. Those are 3 keywords on which our working method is based. We build custom-made real estate portfolios for our investors, entirely according to the wishes discussed in advance and with a continuous supply of new, suitable objects.
