MADEINDONESIA

FRONTED TEST PART 2

A. Slicing

Instructions:

a) Given a home page design of a website, your task is to translate from design (Adobe XD file) to static files (HTML, CSS and JavaScript).

b) You don't need to make the content dynamic, just static pages (.html, .css, .js) are fine.

c) You should take care of the responsive view, which means your page does not break on tablet and mobile devices.

d) We use Bootstrap and SCSS on the daily basis, so if you can use those technologies will be a plus. Otherwise, feel free to use your favorite stacks.

e) We have 2 important criteria in evaluating test result, which are:

i. Attention to details

ii. Responsiveness

f) You should send the test result to us within 2 days after you receive the test.

g) Do your best on time, good luck!

Link assets:

a) Mockup files

a) https://drive.google.com/drive/folders/1PNnlv9PmqTPVzOS-P1nVWidJjG5x2iPR?usp=sharing

b) Fonts

a) https://fonts.google.com/specimen/Poppins

b) https://fonts.google.com/specimen/Hind
